Welcome
3rd World Villages Journey
Into the 21st Century
A story about the Chikhale School
and the students it serves
as they join the rest of India on a journey into the future.
Chikhale – just beyond Mumbai
66 Million Years Ago
Old and new live side by side.
Joy in simple things.
Note: Battery and tube light are gone, now powering a house.
Travel on a bumpy road over the expressway.
Building construction began in the 1980’s in conjunction with a Rotary 3-H grant and other international funding. Classes began in 1989 when the Chikhale Villagers and the ICA India staff decided to provide educational opportunities for Tribal children.
End of new international airport runway.
Apartments near Chikhale.
Moving forward:
1. Establish mentoring program
2. Develop job skills training systems
3. Provide on-line follow-up for capacity skills training
4. Enhance the science lab and library
5. Continue the Global Classroom
Thank you for your interest and support.
